

World Congress for Microcirculation

10TH QUADRIENNIAL MEETING

Kyoto International Conference Center
25-27 September 2015
Kyoto, Japan

Save the date!

Join your peers in Kyoto, Japan for three days of exciting science to discuss the impact of the latest research, concepts and applications of microcirculation and metabolism.

<http://www.congre.co.jp/wcmic2015/>

Plenary presenters include....

Targeting endothelial metabolism: principles and strategies

Peter Carmeliet
Katholieke Universiteit Leuven
Leuven, Belgium

Catching pathogens in the microcirculation

Paul Kubes
University of Calgary,
Alberta, Canada

Imaging brain activity from oxygen dynamics in capillaries

Serge Charpak
Institut National de la Santé et de la
Recherche Médicale Paris, France

CALL FOR PAPERS

Topics include:

- Atherosclerosis/ thrombosis/ platelets
- Cancer metabolism and microcirculation
- Cell systems and metabolism
- Endothelial cell biology
- Ion channels and transporters
- Inflammation/ leukocyte-endothelium interactions/ immune cell trafficking
- Instrumentation, methodology, and experimental models
- Lymphatic and venular function
- Microvascular cell signaling pathways
- Microvascular development and aging
